

Year 2 Newsletter

Topic

The year two classes will be learning about famous people and famous artists in the Spring Term. They will be finding out more about such people as Christopher Columbus in history and Van Gogh in art.

PE Times

Tuesday am ~ Badgers

Wednesday am ~ Hedgehogs

Thursday am ~ Ball skills for both classes.

Friday pm each week large apparatus both classes.

PLEASE NOTE THE CHANGE OF TIMES

Science

We will be learning about electricity and its importance in our lives. Following on from that we will be looking at variation. This teaches the children about the differences and similarities between humans and animals.

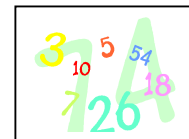

Literacy

In the first four weeks our literacy lessons will be based upon traditional tales. The children will be learning how to write stories. They will also learn how to use texts for information. In the latter part of the term the children will turn their attention to writing reports about events that have taken place in their lives.

Mathematics

- Securing number facts and understanding shape.
- Handling data and measures
- Calculating and measuring

It is always helpful if parents support their children at home. If you have any questions about what your child is doing this term please speak to one of the year 2 teachers.
